FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

In the Matter of

Amendment of Section 73.202(b)  
Table of Allotments  
FM Broadcast Stations  
(Kerrville and Lakehills Texas)

)  
)  
)  
)

MM Docket No. \_\_\_\_  
RM \_\_\_\_

To: Chief, Allocations Branch  
Policy & Rules Division  
Mass Media Bureau

**PETITION FOR RULE MAKING**

Media Properties, L.L.C. ("MPL"), licensee of Station KITE(FM), Kerrville, Texas, by its counsel, hereby petitions to amend the FM Table of Allotments to substitute Channel 223C2 for Channel 222C2 and change the community of license for Station KITE from Kerrville to Lakehills, Texas as its first local service. MPL also requests modification of its license for Station KITE to specify Lakehills accordingly. In support hereof, MPL states as follows:

1. Lakehills, Texas has a population of 2,147 (1990 U.S. Census) and has no local radio service. Bandera County in which Lakehills is located, has only one radio station, KEEP(FM), licensed to Bandera. Lakehills is listed as a new community in the 1990 census.

2. As demonstrated in Exhibit D to the attached Technical Statement by Willoughby & Voss, Lakehills is a scenic resort community that has grown to become an attractive place to live and work. The community has a fire department, constable, sheriff and emergency medical service. Lakehills has numerous businesses, churches, banks and recreational facilities. The largest industry is retail trade but residents also work in the fields of agriculture and forestry,

No. of Copies rec'd  
List ABCDE

044

mining, construction, manufacturing, transportation, communications, wholesale trade, finance, insurance, real estate, business and repair services, personal services, entertainment and recreational services, professional health and education and public administration. See Exhibit 1. Lakehills has sufficient cultural, business and governmental indicia to demonstrate that it qualifies as a community and needs its own local radio service. See e.g., West Hurley, NY et al., (NPRM) DA 97-1697 rel. August 15, 1997 (census designated place listing satisfies the presumption of community status). Hannahs Mill, Milledgeville and Perry, GA., 6 FCC Rcd 3753 (1991) (the community need not have every public service of its own to merit community status).

3. In Amendment of the Commission's Rules Regarding Modification of FM and TV Authorizations to Specify a New Community of License, 4 FCC Rcd 4870 (1989) recons. granted in part, 5 FCC Rcd 2094 (1990), the Commission requires that (1) the current allotment be mutually exclusive with the proposed use; (2) the proposal meet the Commission's technical requirements; (3) the current community retain existing local service; and (4) there is an overall public interest benefit in the proposal service compared to the current service.

4. As indicated in the attached **Technical Statement**, Channel 223C2 at Lakehills at a site 27.8 km west complies with the spacing requirements and can provide city grade service to Lakehills. The site restriction is necessary to avoid short spacing from three stations, including KROM(FM), San Antonio, Texas. Station KROM recently filed a license application for its new site as a Class C1 facility (BLH-970530KA) which meets the spacing requirements to MPL's proposal. Thus, Station KROM has voluntarily downgraded from a Class C to a Class C1 and the previous listing for KROM as a Class C should be deleted from the data base. Accordingly, this proposal meets Sections 73.207 and 73.208 of the Commission's Rules with respect to all

authorizations. In addition, the proposed use of Channel 223C2 at Lakehills is mutually exclusive with the current use of Channel 222 C2 at Kerrville. See Technical Statement.

5. Kerrville (pop. 17,384) has adequate existing local radio service with Stations KERV(AM) and KRVL(FM) at 50,000 watts remaining at Kerrville should KITE be reallocated. A first local service at Lakehills is preferred over a third local service at Kerrville under the Commission's priorities as set forth in Revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1982). Finally, Lakehills is not located within any urbanized area and the proposed 70 dBu contour will not reach 50% of any urbanized area. Accordingly, this proposal satisfies all of the prerequisites for Commission consideration of a change in community of license.

6. MPL recognizes that before the Commission can adopt this proposal, it must show that the proposed loss area created by the proposed change in transmitter site location will continue to receive five aural services, in addition, a gain and loss area/population is also relevant. MPL's engineer has been away on assignment and unavailable to provide these showings prior to this filing. So as to avoid delay in filing this petition, MPL requests that it be permitted to submit these showings by the comment deadline. MPL further requests that the Commission staff promptly seek concurrence from Mexico for this proposal and in the meantime issue a Notice of Proposed Rule Making as expeditiously as possible.

7. MPL hereby states that if the Commission grants the reallocation of Channel 223 C2 to Lakehills, it will file an application promptly. Should the application be granted, MPL will construct the facility to provide a first local service to the residents of Lakehills.

Respectfully submitted,

MEDIA PROPERTIES, L.L.C.

## WILLOUGHBY & VOSS

---

### TECHNICAL STATEMENT IN SUPPORT OF PROPOSED RULE MAKING MEDIA PROPERTIES, LTD., KITE RADIO

The firm of Willoughby & Voss has been retained by Media Properties, Ltd. - KITE Radio, licensee of KITE, FCC File No. BLH-940603KD, to prepare the instant technical statement in support of a petition for rule making to amend the FM Table of Allotments by deleting Channel 222C2 at Kerrville, Texas, and assigning Channel 223C2 to Lakehills, Texas. Further, it is requested that the KITE license be modified to reflect Lakehills as the Community of License.

The instant proposal is mutually exclusive with the present assignment of KITE-FM to Kerrville, Texas. The deletion of Channel 222C2 at Kerrville, will leave that community with two local services, one FM and one AM assignment.

An allocation study of Channel 223C2 was performed, using allotment reference coordinates **29°35'04"N.L. 99°14'00"W.L.** This study shows the site meets all Class C2 distance separation requirements of §73.207 of the Commission's Rules. Exhibit A is a map that shows the allotment reference coordinates. Exhibit B is a tabulation of the allocation study.

The allotment reference coordinates are 27.8 km (bearing 270 degrees True), from the Lakehills, Texas. This site restriction is necessary to meet the distance separation requirements to:

KBLK Ch. 223A at Burnet, Texas

KTXK Ch. 221A at Devine, Texas

KROM Ch. 225C1 at San Antonio, Texas

It should be noted that the FCC FM Engineering Database shows that KROM is licensed as a Class C and has a CP for Class C1. KROM is presently operating as a Class C1 from its CP site and the license application, Form 302, has been filed with the Commission.

---

WILLOUGHBY & VOSS

---

This proposed facility will serve all of the community of Lakehills with the required 3.16 mV/m contour, as demonstrated in Exhibit C. The total area within the 60 dBu contour is 8,324 sq.km. and serves a population of 53,294.

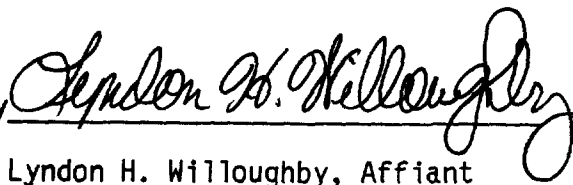

The U.S. Census Bureau has designated Lakehills as a "census place". The 1990 Census figure for Lakehills proper is 2,328. Adoption of this proposal will provide Lakehills with "first local service". The community of Lakehills is wholly outside of any urbanized area. Exhibit D is a promotional map of Lakehills, Texas, and will provide additional information regarding this community.

In light of the above facts, it is requested that the Table of Allotments contained in Section §73.202(b) of the Commission's Rules be amended to read as follows:

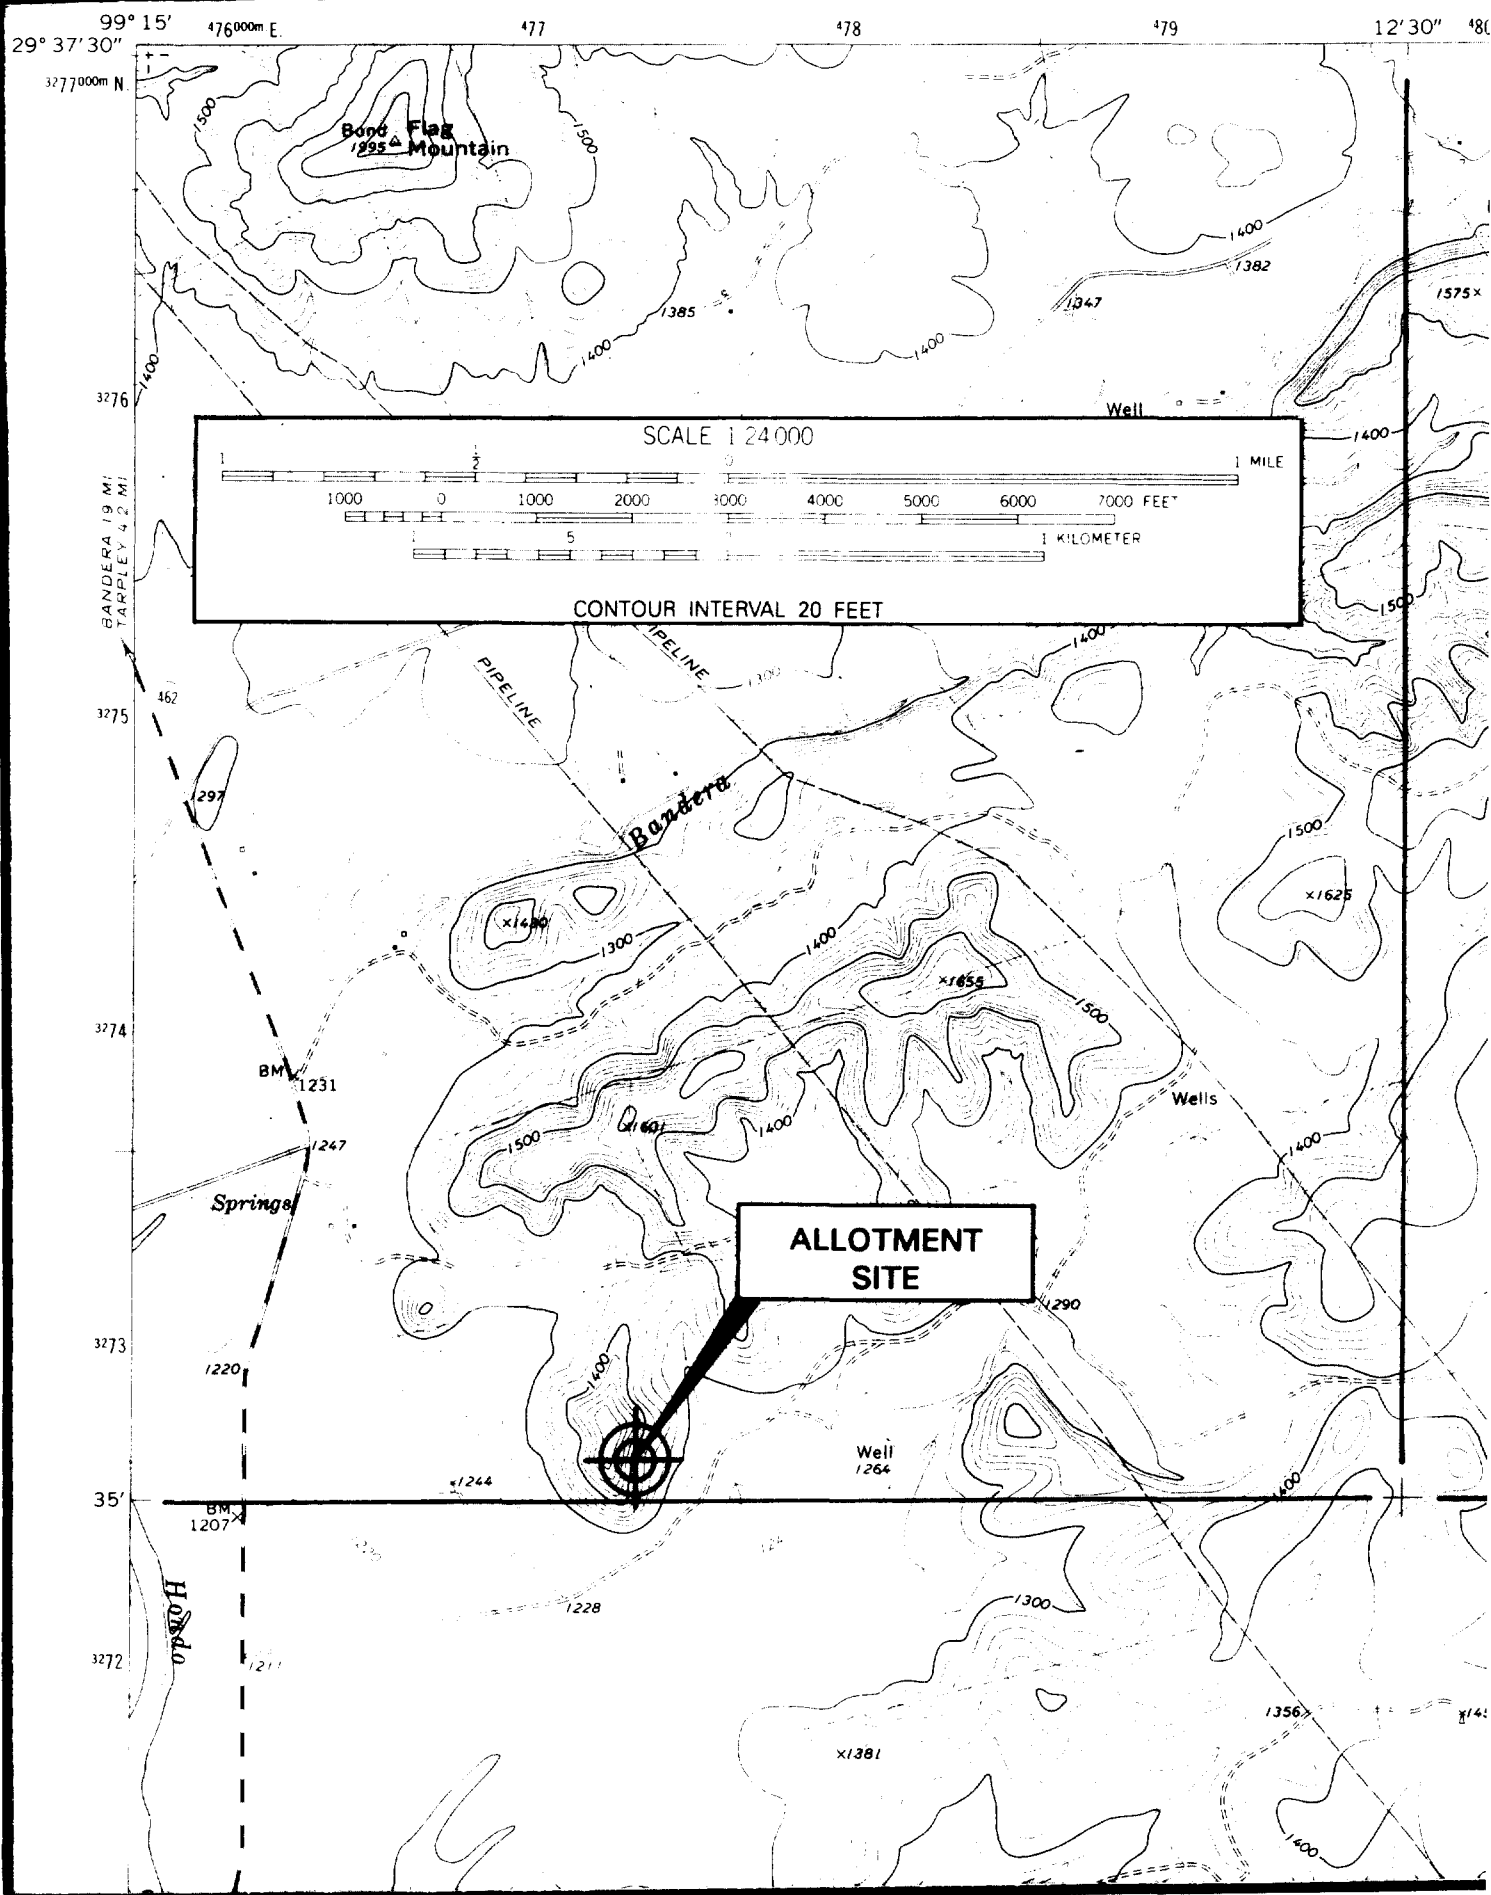

<u>COMMUNITY</u>	<u>PRESENT</u>	<u>PROPOSED</u>
Kerrville, TX	222C2, 232C2	232C2
Lakehills, TX	none	223C2

Upon adoption of the above requested changes, formal application for the respective facility will be filed with the FCC.

The foregoing was prepared on behalf of Media Properties, Ltd.-KITE Radio, by, or under the immediate supervision of Lyndon H. Willoughby, of Willoughby & Voss, San Antonio, Texas. The affiant's qualifications are contained in previous filings and are a matter of record with the Federal Communications Commission. The statements and data contained herein are true and correct of his own knowledge, except for statements made on information and belief and as to those statements, he believes them to be true and correct.
